Economics GPA: 3.9; SAT: 1530 (790M, 740RW)

Relevant Coursework: Financial Accounting (Booth), Macroeconomics, Microeconomics, Theory of Algorithms

Activities: Chabad, TAMID, Sailing Team, Chess Club, Phi Delta Theta

EXPERIENCE

Third Point

New York, NY

Summer Analyst, Technology Coverage Group

June 2024 - August 2024

- Focused on the semiconductor sector and global electric vehicle output, creating financial models to project future cash flows and company valuations
- Engaged with sell-side analysts and industry experts to refine equity research and enhance market perspectives
- Developed deliverables for the CEO, incorporating insights from financial models and market analysis
- Select project experience:
 - Assembled a 15-year, bottom-up operating model and DCF analysis for a large semiconductor company; issued a 'Buy' rating due to projected growth in plug-in hybrid electric vehicle (PHEV) units and increasing demand for AI semiconductors
 - Developed a flexible valuation model from scratch for the new private credit team. Collaborated on due diligence and contributed to deliverables for two live credit deals
 - Compiled extensive historical and projected xEV model data, and developed an AI program to automate data scraping, significantly improving efficiency and accuracy

TRACT

Remote

Software Engineering Intern

December 2022 – August 2023

- Developed a Social Media Analysis system, which increased the efficiency of the company's social media due diligence process by over 90%
- System utilized official APIs from Twitter, Instagram, Facebook, LinkedIn and YouTube, as well as Machine Learning Models to detect the sentiment of posts
- Acted as a project manager for a team of 6, conducting weekly code reviews and communicating the CEO's vision
- Coordinated with teams company-wide to integrate social media system into the universal software platform and introduced the software to 50+ team members

LEADERSHIP/ACTIVITIES

Research Assistant, University of Chicago Department of Economics

September 2024 - Present

- Collaborated with Nobel Laureate James Heckman on pioneering research that explores human capital development, labor economics, and intergenerational mobility.
- Worked on projects, including applying stochastic discount factors to earnings data to study economic trends.

Board Member, Chabad

September 2024 - Present

- Lead the planning, logistics, and execution of events that foster student engagement and promote Jewish heritage.
- Collaborate with board members on initiatives to enhance participation and cultural connection on campus.
